Variable Annuity Reference Guide

A secure, financial future. Your clients dream about it, but are they in a position to live it? They will encounter risks to that security. Longer life expectancies, rising healthcare costs, market uncertainties, income taxes, inflation — one or more will impact your clients' retirement. This reference guide provides information on the financial solutions we offer to help them plan for and manage life's risks.

And who are we? W&S Financial Group Distributors, Inc. a marketer and distributor of annuities issued by Integrity Life Insurance Company, Cincinnati, Ohio, or National Integrity Life Insurance Company, Greenwich, New York, and offered by Touchstone Securities, Inc. We provide solutions that help clients reduce financial uncertainty and manage their retirement risks.

Plus, we are backed by the financial strength, high ratings and solid capital position of our parent company, Western & Southern Financial Group (Western & Southern), who has demonstrated resolve and resiliency throughout challenging economic cycles. Knowing that contractual commitments will be upheld for a lifetime provides peace of mind.

Investment Options: AnnuChoice® and Pinnacle

Integrity and National Integrity seek to provide unique and differentiated investment options advised by professional money managers. The goal is to offer access to a broad range of asset classes and investment styles. More than 60 investment options — covering many asset classes and investment styles, including alternative investments — currently are offered.

- Alternative investment options broaden the opportunity for investment diversification, making professional management of non-traditional assets, such as commodities and real estate, as well as hedging techniques, accessible to the variable annuity owner.
- Lifecycle-oriented investors have access to portfolio options featuring Fidelity® VIP Freedom Funds¹, date-targeted portfolios designed for strategic asset allocation.
- When investors desire long-term market exposure, short-term volatility may foster uncertainty and prompt investment pullbacks. Helping investors pursue retirement goals while weathering choppy markets is the aim of managed risk strategies.

Those investors who prefer “self-styled” investment strategies can choose from a broad array of professionally managed investment options to find those that best fit their wealth-building goals, risk tolerance and investment time horizon. As you help your clients plan for a secure financial future, explore the investment opportunities available within Integrity and National Integrity variable annuities.

Variable Annuities: Additional Features

- Annuitant-driven contract (death benefit paid at the death of the annuitant), except VAROOM[®], which is owner-driven
- Spousal continuation¹
- Asset allocation and rebalancing
- Dollar cost averaging (DCA)
- Withdrawal Charge Waivers:
Withdrawal charges and market value adjustments (upward or downward) may be waived for hardship distributions such as unemployment, terminal illness and confinement to a nursing home, hospital or long-term care facility, provided the issuer receives prior required notification². Similarly, required minimum distributions may also qualify for waivers. There are no hardship or disability waivers for VAROOM.

¹ When contract is properly structured for spousal continuation.

² Disability waivers apply only in National Integrity states (ME, NH, NY and VT). Unemployment not included in IN, MT, NJ, TX or WA.

Investment Options: VAROOM®

Investment options within VAROOM, a Variable Annuity for Roll Over Only Money from Integrity and National Integrity, include ETFs (Exchange Traded Funds) offered through subaccounts and one non-ETF Money Market subaccount. The subaccounts invest in ETFs from iShares® and Vanguard®. A pioneer of the ETF marketplace, iShares is the world's leading ETF-solutions provider. Vanguard, among the world's largest investment managers, is a leader in offering low-cost ETFs.

Cost-effectiveness and diversification position ETFs as a prudent approach to investing. Because the ETFs offered through the subaccounts in VAROOM track indices passively, these ETFs generally have lower expenses and fees than actively managed mutual funds and give your clients the ability to diversify with ease. VAROOM fund expenses range from 4–49 basis points (as of 5/1/19). ETFs similar to those offered as underlying investment options in VAROOM are available for direct purchase without the additional fees and benefits of VAROOM.

This brochure briefly summarizes some of the contract provisions and is not part of the annuity contracts themselves. These annuities have limitations and terms under which the contracts may be discontinued.

Before making rollover decisions, carefully consider all available retirement plan options. Factors to consider include, but are not limited to, account fees and expenses, service levels and withdrawal penalties, as well as the limitation of one IRA rollover per year. Consult a tax or legal advisor as tax consequences vary depending on state law and your individual situation. VAROOM does not provide the tax advantages typically provided by an annuity contract. The tax advantages of this contract exist solely through its qualification as an IRA.

Product issuer **Integrity Life Insurance Company**, Cincinnati, OH, operates in DC and all states except NY where issuer **National Integrity Life Insurance Company**, Greenwich, NY, operates. Securities offered by **Touchstone Securities, Inc.**,* Cincinnati, OH. W&S Financial Group Distributors, Inc. is an affiliated agency of the issuer. Issuer has sole financial responsibility for its products. All companies are members of Western & Southern Financial Group, Cincinnati, OH. * A registered broker-dealer and member FINRA/SIPC.

Payment of benefits under the annuity contract is the obligation of the insurance company issuing the annuity. Guarantees are based on issuer claims-paying ability. Product and feature availability, and benefit provisions, vary by state. Contact a financial professional for details and limitations. Interest rates are declared by the issuer at annual effective rates, taking into account daily interest compounding.

Western & Southern member companies and agents do not offer legal or tax advice. For tax information, see an attorney or tax advisor. Variable annuities are tax-deferred insurance products. If you invest through a tax-advantaged plan (e.g., IRA or 401(k) rollover), you receive no added tax advantage or deferral from an annuity. Earnings and pre-tax premium payments are subject to income tax at withdrawal. Withdrawals before age 59½ are generally subject to charges and taxes, including a 10% IRS penalty tax. Tax advantages of a VAROOM contract exist only through its qualification as an IRA. You receive no added tax advantage or deferral for the annuity. VAROOM is subject to all laws governing IRAs, including, but not limited to, age and contributions limits, early and late IRS withdrawal penalties and required minimum distributions.

ETFs similar to those offered as subaccount options in VAROOM are available for direct purchase outside of it, without the additional fees and benefits associated with an annuity.

Dollar cost averaging (DCA) neither assures a profit, nor protects against a loss in declining markets. For DCA to be effective, investors need to continue to invest during both market ups and downs, and consider their financial ability to maintain a consistent level of investment over time.
